**For Immediate Release**

**Partner Recognized for work on Your Choice Living's Medical Home® Solutions**

*Wins Oracle North America Titan Award*

**ORACLE OPENWORLD, SAN FRANCISCO -- November 12, 2007** – Your Choice Living's development partner, Piocon Technologies, Inc., was honored as recipient of the fourth annual Oracle North America Titan Awards, at a ceremony held Sunday evening at the San Francisco Marriott. This award, presented on behalf of the Oracle PartnerNetwork, recognizes Piocon's success in developing and implementing solutions based on Oracle technologies for Your Choice Living's healthcare applications. Award recipients were selected by an esteemed group of 65 judges, comprising individuals from the media and analyst community, along with Oracle sales, marketing, and development executives. Only twenty awards were given in this year of record submissions.

“We were excited about this award, Oracle's very first delivered specifically for the health care industry category,” said Jonathan Weatherly, CEO of Your Choice Living. “This award recognizes the fact that our partner, Piocon used the extensive capabilities of the Oracle technology platform to implement the Medical Home® vision and ideas of our management team and clinical staff.” Keith Knohl, Vice President, Technology for Your Choice Living, added “the Piocon Team creatively implemented our vision of combining electronic medical records, in-home monitoring devices, customized rules engine, and real-time reporting using the Oracle application stack while always keeping an eye on security and scalability.”

### **About Your Choice Living**

Your Choice Living, Inc. is a healthcare solutions firm that integrates patient data from monitoring devices and electronic medical records into a single portal system via its patent pending Medical Home<sup>®</sup> technology platform. Medical Home<sup>®</sup> solutions give customers a single system from which to manage the complexities of telemedicine services and support FallSaver<sup>™</sup>, one of the most comprehensive fall prevention products on the market today. With excellent devices from many companies now available to capture health data at the home or inpatient setting – Your Choice Living provides the glue to help integrate patient data from multiple sources. With its automated alerting and reporting system, Medical Home<sup>®</sup> keeps relevant information flowing between patients and care providers.
